Research Center

IMC Medical Library

- [E-Resources Subscription](#) Renewed for the Year 2022-2023.
- [UpToDate](#): is an electronic resource that provides the most current evidence-based clinical information at the point of care.
- [ClinicalKey](#): is a medical search engine and database tool owned by medical and scientific publishing company Elsevier.

IRB

(Institutional Review Board)

The Research Center at the IMC has been quite busy in the year 2021, where the Institutional Review Board (IRB) has **reviewed and processed close to 50 submissions** of different research specialties and designs (compared to 26 in the year 2020), out of which, more than ten submissions were part of huge international studies.

The Research center has also organized and conducted the **first research completion**. More than **30 researchers** from around the IMC have contested to win a group of **generous rewards that exceeded SR100,000 in total**. The winners have been ranked based on seniority (number of publications, number of citations, and years at IMC (higher numbers got higher scores) and finally seniority (juniors got higher scores).

What is IRB?

(Institutional Review Board)

The Institutional Review Board (IRB) is governed and maintained by the Research Center; it is a committee board where **all Research proposals** of different types are peer-reviewed and discussed according to their ethical, feasible, and financial merits. IMC IRB is recognized by the **National Committee for Medical and Bioethics and King Abdulaziz City of Science and Technology (KACST)**.

Members of IRB
