Continuing Professional Development

At the International Medical Center Academy, The unit of Continuous Professional Development offers development opportunities for healthcare providers from different specialties to promote their knowledge, skills, and attitude by delivering evidence-based education, hands-on training and focusing on new techniques.

The Continuous Professional Development unit provides more than 150 Continuous Professional Development activities and trains above 7000 healthcare professionals on annual basis.

The International Medical Center Academy's Continuous Professional Development unit is accredited by the Saudi Commission for Healthcare Specialties and the Society of Critical Care Medicine.
